

Symbol Explanations

Symbol	Meaning
	Article number
	Batch code
	Manufacturer
	Authorised representative in the European Community
	Date of manufacture
	Use by
	Do not reuse
	Consider instructions for use
	Attention

Symbol	Meaning
	Serial number
	Sterilised with ethylene oxide
	Do not resterilise
	Do not use if the packaging is damaged
	Keep away from sunlight
	Store in a dry location
	Temperature limit
	Humidity, limit
	Contains no natural rubber latex

Symbol	Meaning
	Contains phthalates
	Phthalate free
	Fire, open sources of ignition and smoking prohibited
	Smoking prohibited
	The device and its components may not be disposed of with normal commercial or household waste (batteries in particular).
	Complies with Directive 93/42/EEC
	MR unsafe

Symbol Explanations

Symbol	Meaning
	Air pressure, limit
	Contains natural rubber latex
	For food contact
	Applied part Type BF
	Protection class II
	Protection against microorganisms
	Protection against chemical risks (according to the requirements of EN 374-1:2003, 5.2.1)
	On (Power)

Symbol	Meaning
	Off (Power)
IP 22	Protection against contact with fingers and medium-sized foreign bodies, protection against vertically falling water.
	DC Voltage
QTY	Quantity
CH	Charrière
IPX1	Water drop protected
% SpO ₂	Partial oxygen saturation in percent
	No SpO ₂ alarm

Symbol	Meaning
	5.1: Oxidizing substances
	2.2: Non-flammable, non-toxic gases
	Do not reuse more than 40 times
